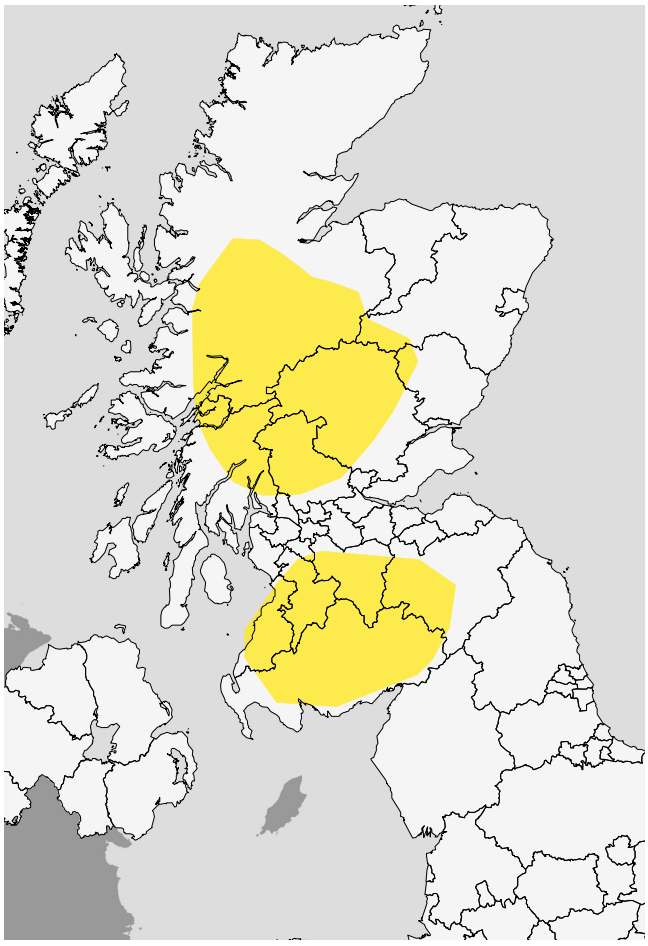
Yellow warning
Rain

Between
14:00 Tue 3 Jan 2023 and
06:00 Wed 4 Jan 2023



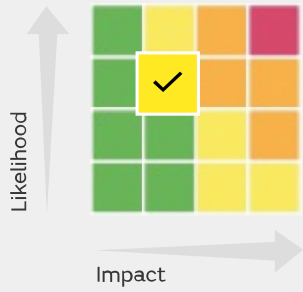
Occasionally heavy rain, and a thaw of lying hill snow, is expected to lead to localised flooding and transport disruption.

What to expect

- Flooding of a few homes and businesses is possible
- Bus and train services probably affected with journey times taking longer
- Spray and flooding on roads probably making journey times longer

Further details

Outbreaks of occasionally heavy rain, falling onto already saturated ground, during Tuesday and overnight into Wednesday are expected to bring some localised flooding across parts of western and central Scotland. Accumulations widely of 15-25 mm are likely with a few locations, mainly western hills, seeing as much as 50 mm. In addition to the rainfall, rising temperatures will lead to a thaw of lying snow, especially over the hills and mountains to the north of the Central Belt of Scotland.



Medium likelihood of low impacts

Issued at 10:01 Mon 2 Jan, 2023
